

Shawn Canty

Behavioral Data Analyst | SQL, BigQuery, Advanced Excel, Tableau
Richardson, TX | canty.shawn.m@gmail.com | [Github Portfolio](#) | [Tableau Public](#)

PROFESSIONAL SUMMARY

Google-certified Behavioral Data Analyst combining a strong understanding of human behavior, psychology, and an analytical mindset with a skill set in SQL, BigQuery, Tableau, and Excel. Conducted analysis of 5.9+ million records and developed behavioral segmentation strategies that translate complex data into practical business decisions.

TECHNICAL SKILLS & COMPETENCIES

- Expertise in querying and data warehousing using SQL and Google BigQuery, including data extraction, cleaning, and validation.
- Proficient in business intelligence and data storytelling with Tableau, interactive dashboard design, and KPI architecture.
- Skilled in spreadsheet modeling with advanced Excel functions, including pivot tables, Power Query, dynamic arrays, and statistical modeling, as well as Google Sheets.
- Experienced in analytical methods such as churn analysis, behavioral segmentation, cohort analysis, exploratory data analysis, A/B testing, and retention strategy development.

PORTFOLIO PROJECTS

Telco Customer Churn: Behavioral Segmentation & Retention Strategy | *Advanced Excel, Risk Modeling*

- **Analyzed** 7,000+ customer records in Excel to identify churn drivers, segmenting high-risk groups by controllable factors (contract type, tech support engagement) rather than demographics.
- **Developed** a dynamic KPI dashboard to visualize risk segments, revealing a 50.4% churn rate among unprotected Month-to-Month users and enabling targeted, high-ROI retention strategies.

Cyclistic Bike-Share: Consumer Behavior & Membership Conversion | *Google BigQuery (SQL), Tableau*

- **Processed** 5.9 million historical trip records in BigQuery (SQL) and utilized Tableau to visualize behavioral trends, revealing casual riders averaged 19.1-minute trips versus 11.8 minutes for members.
- **Delivered** an executive brief recommending a "Summer Pass" subscription to convert high-volume casual riders into annual members, targeting high-traffic coastal hotspots during peak weekend hours

EDUCATION & CERTIFICATIONS

Professional Certificate, Google Data Analytics | Coursera | June 2026

Bachelor of Arts, Psychology | Arkansas State University

Analytical Focus: Applied empirical research methods, quantitative behavioral analysis, and statistical validity testing.

PROFESSIONAL EXPERIENCE

DoorDash | Independent Logistics Contractor | *Oct 2025 – Present*

- Managed independent route planning and delivery execution across high-volume metro areas, optimizing transit windows to maintain an average of 99% fulfillment accuracy and 5-star customer satisfaction scores

Swim Solutions & Pool Scouts | Pool Technician | *2024 – 2026*

- Conducted water chemistry and system tests at residential and commercial properties, analyzing variances to apply corrective chemical treatments and prevent equipment failure

Various Concepts | Server | *2015 – 2024*

- Managed high-volume service during peak hours, tracking order accuracy and table turnover to maximize satisfaction.
